INFO-Tracker is the first solution to deliver on the promise of intelligent, integrated and simpler applications for growing and already established businesses.

INFO-Tracker is intelligent. The system holds all corporate data in a single database, giving you access to your key performance metrics in real-time dashboard 24 x 7 x 365 from anywhere. As a result, INFO-Tracker enables you to make better, faster informed decisions.

INFO-Tracker is integrated. Within a single, powerful application, it combines complete customer-facing Property Management, Financial, Maintenance, Ecommerce and CRM (Customer Relationship Management) capabilities with back-office Accounting/ERP (Enterprise Resource Planning) and Web Portals for your staff, your customers and your vendors. As a result, it allows companies to unite fragmented data and automate processes from end to end.

INFO-Tracker is simple. With INFO-Tracker, implementations are both faster and less expensive than competitive applications. Modularity enables phased implementations according to your company's need. In addition, with INFO-Tracker can be custom tailored to your specific business needs in order to provide additional automation benefits as a result of which, INFO-Tracker significantly reduces your total cost of ownership (TCO).

Why INFO-Tracker?

Unify Business Processes across the Enterprise

With a single, integrated platform for Property and Maintenance Management, CRM, Accounting/ERP and Ecommerce, you can automate key business functions across all departments, including customer service and reporting, sales, marketing, finance, inventory, purchasing, and employee and contractor management. Your employees no longer have to re-enter data in different systems, rectify inconsistent or inaccurate data, or wait for batch updates. Instead, all your employees view and share accurate data in real time, leading to greater collaboration among departments and increased productivity across your business.

Increase Visibility for Better Decision Making

INFO-Tracker delivers real-time access to key performance metrics, supporting intelligent, timely business decisions all from your knowledgebase environment continuously and seamlessly growing in the background for you. In addition, full visibility into unified owner and tenant records results in more efficient and highly personalized sales and service processes.

Extend Processes to Customers, Suppliers, and Partners

Given today's need to work closely with business partners through an extended enterprise, INFO-Tracker offers self-service portals that enhance collaboration with both customers and vendors. In addition, proactive notification of vendor and customer specific events accelerates process cycles and improves responsiveness, ensuring your position as a preferred partner.

Power of Automation with INFO-Tracker

INFO-Tracker is the world's most automated Property, Asset and Maintenance Management Software solution. INFO-Tracker delivers complete set of automated tools and reporting functions with simpler user interface designed to meet your industry standards and allows you to tailor business practices and processes to meet your specific company and industry requirements.

Get Superior Value with an Affordable Solution

Built from the ground up for growing and midsize businesses, INFO-Tracker offers affordable pricing, accelerated implementation, and comprehensive support packages that results in unbeatable TCO (Total Cost of Ownership). By implementing INFO-Tracker you eliminate costly and time-consuming integration often associated with using a patchwork of disconnected systems. INFO-Tracker also provides leading-edge professional services and educational programs that ensure efficient implementation and your continued, long-term success.
